EDUCATION

United College Of Engineering and Research

2024-28

Bachelor of Technology(B.Tech) in Computer Science and Engineering - **CGPA (First Year): - 8.86**

Bachelor of Technology(B.Tech) in Computer Science and Engineering - **CGPA (2nd Year): - 8.65**

COURSEWORK / SKILLS

- Data Structures & Algorithm
- Database Management System (DBMS)
- Web Development

PROJECTS

Car Rental Management System | Technology Stack Used: java

- Developed a Java-based Car Rental Management System utilizing core OOP principles (Inheritance, Encapsulation) to automate bookings, returns, and billing..
- Streamlined fleet and customer data management, reducing manual record-keeping errors and improving overall system efficiency..

AI Chatbot for Student Support Services

- **Technology Stack Used:** React.js, Vite, Python, FastAPI, Google Gemini API, FAISS, Sentence Transformers, PyPDF, Git, GitHub
- Developed an AI-powered PDF Chatbot that enables users to upload PDF documents and receive accurate, context-aware answers using Google Gemini API, FAISS-based semantic search, and a React-FastAPI architecture.

SignBridge AI— Uhack 4.0

- **Technology Stack Used:** Python, OpenCV, MediaPipe, HTML, CSS, JavaScript, React.js
- Deaf Mute Module: Real-time sign language recognition converting hand gestures to text and speech.
- Visually Impaired Module: Voice-assisted digital navigation and audio feedback system.
- Dyslexic Module: Adaptive reading UI with customized fonts, spacing, and simplified layouts.

React Utility Dashboard & Portfolio — Tech Stack: React.js, React Router, CSS3, JavaScript

- **Component Architecture:** Built a responsive, dark-themed dashboard integrating 10+ modules including Authentication, Real-time Weather, Google Maps, and arithmetic tools.
- **State & Routing:** Managed application state using React Hooks and configured React Router for seamless dynamic navigation and theme switching (Dark/Light mode).
- **Modular Design:** Designed clean, reusable UI components and logic-based utility features (Palindrome and Prime Number checkers) to ensure maintainable code.

INTERNSHIP

- I have done a Deloitte Virtual Internship on Technology and get the completion certificate on July 30th,2025.
- Completed an IBM Virtual Internship focused on Generative AI, Machine Learning, LLMs, and Prompt Engineering techniques.

TECHNICAL SKILLS

Languages: HTML, CSS, Java, C, JavaScript, Python

Developer Tools: VS Code

Technologies/Frameworks: GitHub

EXPERIENCE and TRAINING

Summer Training

June 2025 – Aug 2025

United College Of Engineering and Research

Naini, Prayagraj

- Successfully completed **60 hours of Summer Training in Core Java with Collection Framework**
- Gained hands-on- experience on object- oriented programming, data handling and Java collections

Generative AI Workshop-NXT Wave

- Attended an intensive workshop on **Generative AI concepts and applications**
- Gained hands-on- exposure to Large Language Models (LLMs), prompt engineering and AI tools

EXTRACURRICULAR and ACHIEVEMENT

- I am also a NCC cadet and completed two NCC training camp where I participated in **in various curriculum and win Gold and Silver Medal.**
- Rap Singer with active participation in college cultural events.
- Received **LETTER OF APPRECIATION (Twice)** from **United College Of Engineering and Research** for securing **top academic performance** in sessional examinations.
- Passed NCC 'B' Certificate exam with 'A' Grade
- Secured Top 66 Finalist position among 260+ teams and won "Girls in Tech Empowerment Award" at UHack 4.0.
- Leadership Sports: Performed NCC Piloting to inaugurate Udaan Sports Fest; secured Gold Medal in Kho-Kho and Bronze Medal in Relay Race.
- Participated and achieved position in essay writing, debate and quiz competition.

CERTIFICATIONS

- Deloitte Virtual Internship Certificate
- Summer Training Completion Certificate (core java)
- NCC Camp Completion Certificate
- NCC 'B' Certificate
- Smart India Hackathon (SIH) Participation and Winning Certificate
- Udaan Sports Fest Certificates (Gold Medal in Kho-Kho & Bronze Medal in Relay Race)
- Python for Data Science
- Generative AI Workshop by NXT WAVE Completion Certificate
